... because they deserve nothing less than the best!

The right environment

Add variety

- Tunnels** to run through & hide in.
- Dig boxes** to play & lay in.
- Nest boxes** to hide or snuggle up in.
- Plus** areas to jump on to.
- Rabbits love different levels
- Make it fun, but safe.** Don't place things too high up for your rabbit to jump off as they could easily injure themselves

Change it around every now & then to help stimulate your rabbits mind

Bedroom areas

Provide places to hide and to keep warm & places to jump on to & run through.

Careful with ramps

Make sure ramps are not too steep & make sure your rabbit can grip ok on them. Add steps to the ramp like this one pictured below or cover with carpet (see above)
