Health check form

A helpful form to fill in when checking your bunnies health

Bunny's name	Tick box	Notes	Date of health check	Tick box	Notes
Nose clean & dry (Check no discharge)			Tail & bottom clean & dry Use a comb and baby wipes to clean		
Eyes clean & bright Runny eye/s? Take them to see the vet			Clean out scent glands Use a damp cotton bud		
Ears clean & dry Check for wax or ear mites (dark crust)			Trim fur around bottom area if needed Use curved scissors		
Give a good brush all over Brush out any matted fur - never cut off			Apply fly strike spray		
Skin/fur even & shiny Check for dandruff which could be mites			Check droppings Check no signs of diarrhea or a change in shape to droppings		
Feet clean & dry? Check for sore patches or matted fur			Check for wet fur around sides of mouth Could mean dental problems		
Check for abscesses/lumps all over Especially around ears, eyes and jaw			Check for small lumps along jaw line Could be dental problems		
Check for inflamed skin Red skin patches that feel hot could be the start of an abscess			Check if nails need trimming Shouldn't be longer than their fur
